

**Amendments to the Claims:**

The listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

Claims 1-5 (cancelled)

Claim 6 (Previously Presented): A fabric material for a care label comprising a woven or non-woven fabric base, a print pattern formed by printing with a fluorescent pigment ink on at least one side of said base, a first coating layer formed on a non-printed side of said base, and a second coating layer formed on said print layer, both of said first and second coating layers having opacity of 20-92%.

Claim 7 (New): A fabric material for a care label comprising:

- a woven or non-woven fabric base;
- a print pattern formed by printing with a fluorescent pigment ink on at least one side of said base;
- a first coating layer formed on a non-printed side of said base; and

- a second coating layer formed on said at least one side of said base,

wherein said print pattern cannot be observed from said non-printed side and said at least one side of said base under sunlight, and

said print pattern is visible to the human eye only when said non-printed side and/or said at least one side of said base is irradiated with ultraviolet light.

Appln. No. 09/747,942  
Amdt. Dated January 22, 2004  
Reply to Office Action of October 22, 2003

Claim 8 (New) The fabric material of claim 7, wherein said first coating layer has opacity of 20-92%.

Claim 9 (New) The fabric material of claim 7, wherein said second coating layer has opacity of 20-92%.
